STATINTL

MEMORANDUM FOR: [REDACTED]

VIA: Deputy Director for Processing

FROM: Bruce T. Johnson
Director of Data Processing

SUBJECT: Computer Systems Plan, FY 82-84

George:

I have just finished reading the Computer Systems Plan for FY 82-84 for which I know you are responsible. Let me say for the record that I found it an absolutely first class piece of work; literate, readable, understandable to the non-technician, and in all ways a credit to you, Engineering, and Processing.

STATINTL

I have asked [REDACTED] to ensure that copies get to all of the members of the ODP Board of Directors and I intend to have the report and its clear indication of our technical direction on the agenda for a senior management conference which we are planning for February.

Thank you for this further evidence of the thoroughly professional way in which you handle your share of the ODP burden.

/s/ Bruce T. Johnson
